Fat People Need This Help

Dieting Is Horrible Chore When Your Body Craves More Food Than Average People

Stop thinking you are a spineless creature because you fall off your diet. Stop comparing yourself to others. The needs of **your** body, **your** craving for food, **your** particular problem may be twice as big as other people. If you will accept this simple fact, that YOU NEED HELP, I can give you a plan that will take off pounds and inches almost like magic.

In the first place, SHUT UP! Don't tell a soul you are going to reduce, except your doctor, if you desire. Wait for their compliments! In the second place, GET HELP that will keep you from having those constant, craving hunger pains. I can supply the help that will make dieting fully 50% easier and can help you take off lots and lots of pounds and keep it off. I have done it for thousands. I can help you take fat off if you will let me.

FAT HELP PLAN

This entire plan is based on this fact: You crave something in your stomach —**so I give it to you.** What I give you has little or no food value. You add it to a reasonable modest diet of regular food.

You Get Capsules, Nibblers, Vitamins, 5 Diets, A diet plan

1. **I Send Candy.** Yes, candy! 27 pieces of tasty caramel-like "Slim-Quick" candy that we expect you to nibble on between meals. The secret is—it has a very low caloric content . . . it satisfies your urge to eat without creating fat.

2. **I Also Send Capsules.** 112 of them. These you take before meals. They contain a harmless bulk ingredient that expands gently in your stomach to partly spoil your appetite. So—you won't eat as much!

3. **Vitamins Included.** A strong multiple vitamin is in the capsules to keep up your pep and energy while dieting.

4. **I Send 5 Diets.** Special Diet for Fat Stomachs and Thick Waistlines; High Protein Diet for People Past 35! 2 Day "Jolt-Off Pounds" Diet; Special Diet for Fat Hips and Thighs; How to Stay Thin After Losing Fat.

5. **48 Page Fat Booklet Sent.** It includes a wonderful 14 Day Appetite Control Plan (that can be repeated).

No Medicines—No Drugs—No nervousness. This is an "eating" plan, not a drug or starvation plan. It works because it gives you something to put in your stomach — and that gives you will power.

The complete plan is $8.95. It is fully guaranteed. You risk nothing. If you aren't simply thrilled with your loss of pounds, I will refund your money very cheerfully.

My name is Ruth Pfahler. I am a dietitian specializing in fat diets. I have been in this business 25 years. I operate ethically and fairly. I will help you if you will let me. I will send your money back if you aren't helped.

Clip this. Order from:

Ruth B. Pfahler, Dietitian
Dept. 6412, Decatur, Ill.

Send me your complete FAT HELP PLAN with the understanding that my money will be refunded if I am not pleased. Enclose check, cash or money order for $8.95. I pay postage.

Needle Pointers

Want to save your scissor points from blunting? Cork the tips and at the same time protect other articles in your sewing basket from being damaged by the scissors.

You'll treasure the beauty of a Lone Star Quilt, recently placed on the market. Shades of yellow make this a most intriguing kit. So easy to make with colorfast, pre-shrunk, ready-cut pieces of percale. Finished size measures about 83 inches square.

To help your automatic dishwasher perform efficiently, "sweep" loose food particles from dishes and tableware—especially forks—with a well-lathered plastic dishwasher brush. Keep the brush hygienically clean by washing it immediately in hot soap or detergent suds; rinse under hot running water, and hang to dry.

You can now paint a series of three picture panels (designed for framing as a group) with a "PAINT-N-GROUP" kit. This is a new idea in painting-by-numbers. Each kit contains 3 genuine canvas panels, 12 screw-cap jars, 2 brushes, 1 jar of brush cleaner and complete instructions for painting.

Fabric must be scrupulously clean before tinting. Launder with plenty of soap or detergent suds and rinse before immersing any article in a dye bath.

Clip and turn.

Seam center front of face pieces together.

Sew two teeth pieces together, making opposites. Pin teeth in place as indicated on face pattern. Sew mouth in place overlapping teeth.

Sew nose pieces together, leaving flat end open. Stuff the nose and insert a 8-inch piece of wire. Bend the end of the wire back to prevent wire from protruding through the fabric. Sew the nose in position.

Match 3's on face and 3's on body front and sew together across neck.

Match 2's on body back and 2's on body inset and sew together around body.

Match 2's of body inset and 2's of body front. Sew together around body and continue around head. Leave a 3-inch opening at bottom of front body where legs are inserted.

Sew top of feet together, leaving open at top as indicated and area at bottom where soles are sewn. Sew soles to feet and stuff.

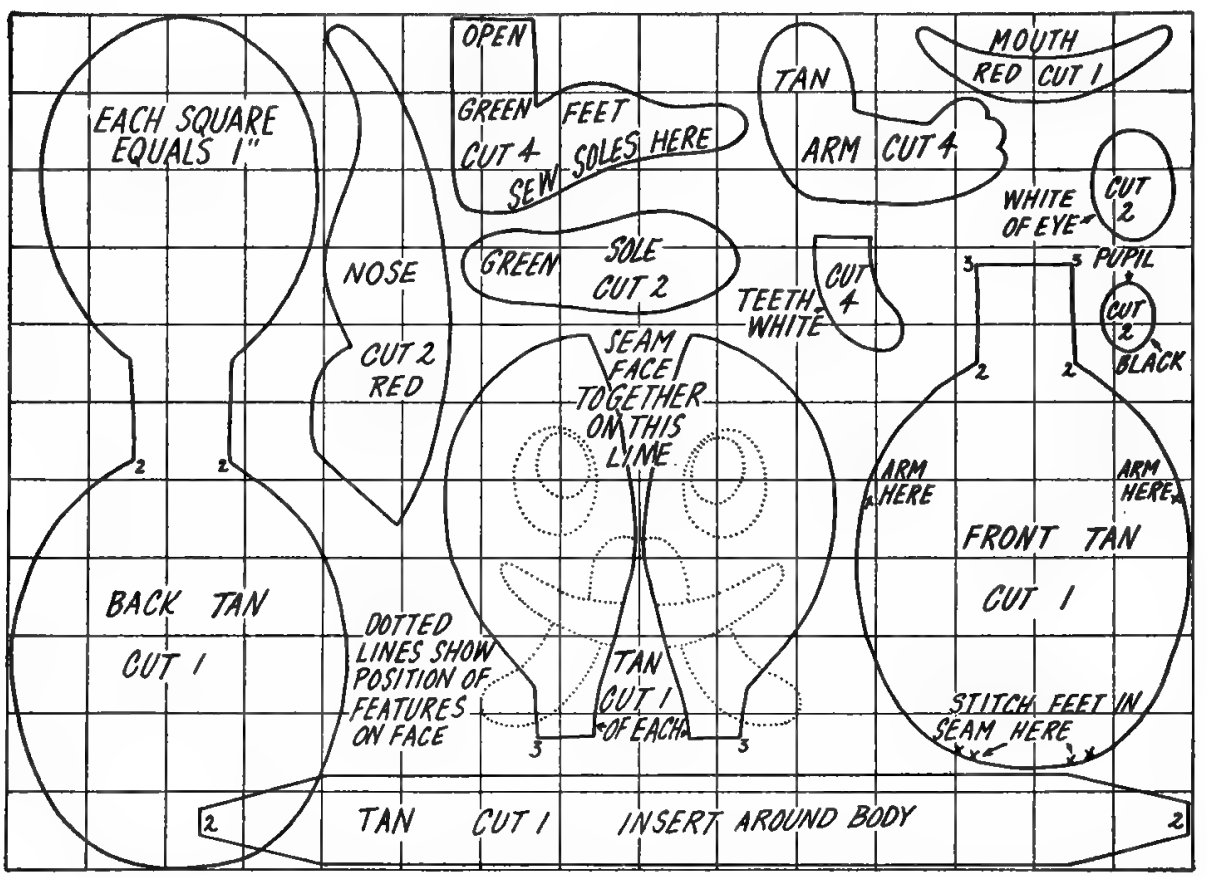
Sew arms together and stuff.

Stuff body. Insert a 7-inch piece of wire into head, neck and body. Bend ends of wire back the same as for the nose.

Insert legs in position and sew bottom of body together.

Attach arms in position.

In stuffing Nosey, use small pieces of batting or other stuffing first to fill small points. Push into place with wooden skewer, knitting needle, or blunt end of pencil before filling larger spaces.



I have a good proposition for men or women who would like to make an extra $192.00 a month for spare time

I won't make any fancy promises of $50.00 a day. I'm not after your money. What I can do is show you a simple plan by which you can make extra money every week in spare time.

By Frank W. Strong

I am Sales Manager for a big company making Stainless Steel Waterless Cooking Utensils. By cutting out all other middlemen, and big selling costs we can **sell** a set of Stainless Steel Cookware for home use for about what it **costs** some companies **to buy it!** Others have to add about 5 profits! We add only our small profit. You add yours—and sell your friends a set equal to $120.00 to $180.00 sets sold by other salesmen for only a small part of that cost! Your friends are glad to get such a bargain and they feel that you've done them a real favor! They don't even have to buy a whole set at one time, either. By my plan they can buy one piece at a time until they accumulate the whole set!

To make an extra $192.00 a month, you only have to deliver eight sets and that's easy. Mrs. Montell of Penn. took orders for $1400.00 worth her first month. Mrs. Wm. Hanchow wrote: "Got my set Saturday—already have 17 customers."

Complete Outfit—Free!

I'll not only be glad to send Free Information, I'll also send you a complete order-taking outfit that you can show to your friends and neighbors. I'll give exact instructions how to get your own 15-Piece Demonstrator Set as a bonus, and how to get orders without making any house-to-house calls. Send your name and address today to Frank W. Strong. Everything I send to you is free. There is no obligation.

Modern Motif Rug

(Directions On Opposite Page)

FOR A nice heavy durable rug, we suggest using January & Wood Kentucky Soft Spun Yarn. The model was made of 3 skeins ecru (which will be referred to as Color A), 5 skeins each of black (Color B) and brown (Color C). Use a plastic crochet hook size G. The completed rug measures about 24 x 36 inches.

Abbreviations:

ch (chain)	sts (stitches)
rsc (reverse single crochet)	lp (loop)
sc (single crochet)	sl st (slip stitch)
	rnd (round)

Gauge:

4 sts equal one inch.
4 rows equal one inch.

General Directions

Pattern Stitch—Row 1 (Right Side): Sc in second ch from hook and in each ch across, ch 1, turn.

Row 2 (Wrong Side): Make reverse single crochet as follows: * With yarn in front of hook, insert hook from back to front in next sc, wrap yarn around hook and draw lp through, yarn over, draw yarn through both lps on hook, repeat from * across, ch 1, turn.

Row 3: Sc in each rsc across, ch 1, turn. Repeat rows 2 and 3 for pattern.

Working with Two Colors — Work over the color not in use. When changing colors in the pattern, with color A work over color B for required number of A sts. Do not complete last A st but leave 2 lps on hook, draw B through these 2 lps. Work over A with B for required number of sts. Always change colors in this manner, pulling yarn you are working over every few sts so it will not show.

Working with Three Colors — Work same as for two colors but work over two strands of yarn instead of one.

Starting at narrow edge with ecru (A), ch 82. Join B. Work in pattern st and work design as follows:

Row 1: * 3 B, 2 A, 19 B, 2 A, repeat from * twice, 3 B (81 sts).

Row 2 and all even rows: Re-

Mrs. Davis uses a piece of ply board, or any smooth board of convenient size and shape to accommodate her figures. For a three-figure panel an 8-by-10-inch piece will do nicely.

After transferring the body designs on the board, the outline may be done with a woodburning set or with black paint, using a fine brush. Colors for the clothes are optional. The heads are half a walnut shell, glued in the proper place. A face is painted on the nut shell, black for the eyes, red for the nose and mouth. Black embroidery thread, braided and knotted at the end, for hair, is glued down when the nut shell is placed.

Hooks screwed in for hands makes this a useful little panel in the kitchen for hanging pan holders or utility tools, in the bedroom for hanging belts or in the bathroom for holding tooth brushes.

For a three-figure panel the names: Sing, Ling, Foo, are burned or painted above the figures. Beneath the figures is found: "Work for you." Should a five-figure panel be wanted: "Sing, Ling, Sung, Lung, Foo; Here to work for you," would do nicely and for a six-figure panel: "Sing, Wing, Lung, Sam, Lee, Foo; Six little slaves work for you."

With multi-colored clothes for the figures, and a protecting coat of waterproof varnish over all, these panels are an attractive as well as useful item.

Funnel for Crochet Thread

At the home of a friend who does crochet work, I noticed a funnel hanging on the wall near her easy chair. Upon close inspection I found that it contained a ball of crochet thread which was dispensed neatly without tangling through the spout of the funnel. I thought this was a clever idea, but I thought the container could be made more attractive. I purchased several funnels and sprayed them with copper and brass paint, then added a colorful decal design. I presented these to friends as gifts. Soon I was requested to make more, which I sold for $1.35. A local department store generously consented to display one of my thread funnels at its needlework counter. This greatly increased my sales.

Crocheted Miniatures

I have been crocheting practically all of my life and enjoying the patterns from The WORKBASKET. I have discovered that many of the items when crocheted in lighter weight threads and smaller hooks than called for in the directions will make "miniatures." For instance a baby's sweater, cap and bootee set will make up into beautiful doll clothes when crocheted in mercerized thread size 20. The beautiful flowers suggested by your patterns have given me an idea for a wrist corsage. Crochet a five-petal flower about an inch in diameter from any desired color. Work a stamen in green onto the end of a small piece of folded wire and pull it through the center of the flower. Use the end of the stamen thread to wind around the wire and all loose ends to make stem. Group seven of these flowers together with seven green leaves which are crocheted around a small piece of doubled wire. Then sew the little bouquet to a piece of ¼-inch wide black elastic that I cut and sew to the size of the wrist. I sell these for $1. I also make neckties for blouses by grouping three of these flowers and leaves together

The WORKBASKET will pay $2 for each short article accepted for this department. Material should concern specific women who have found ways to add to the family income. Address all contributions to Women Who Make Cents, The WORKBASKET, 543 Westport Road, Kansas City 11, Mo. No contributions to this department will be returned.

and sewing a bunch to each end of a 26-inch "spool rope" that I make. I have sold many of these also for $1.

A Pin From a Pecan

Quite by accident I discovered that with a shelled pecan, some black ink, a few scraps of felt, lace or what have you and a pin back, it was possible to evolve a clever little costume ornament. One day I absentmindedly drew human features on the smooth surface of a pecan as I sat waiting for ideas to write up the week's news for our local paper. As I looked at the feminine face that emerged, I thought how cute she would look dressed in a hat of the gay nineties. No sooner said than done. Out with a few felt scraps, my needle and thread, some feathers, some liquid cement, a pin back and I was ready for action. After drawing the features on the smooth surface of the nut, set them aside to dry. The hats are made from a circle of felt, cut to fit the top of the nut. I cut a small circle out of the center, stitch a smaller circle to this for the crown, add a tiny bit of ribbon, feather or ostrich plume if you can find it. The hat is cemented to the top of the nut, and the pin back to the side opposite the face. Give your little lady a gay neckscarf and she is ready to act as a conversation piece from a vantage point on your shoulder or as a clever place marker at, say, a bridal shower. These little novelties sell readily for 75 cents and the cost is practically nothing.

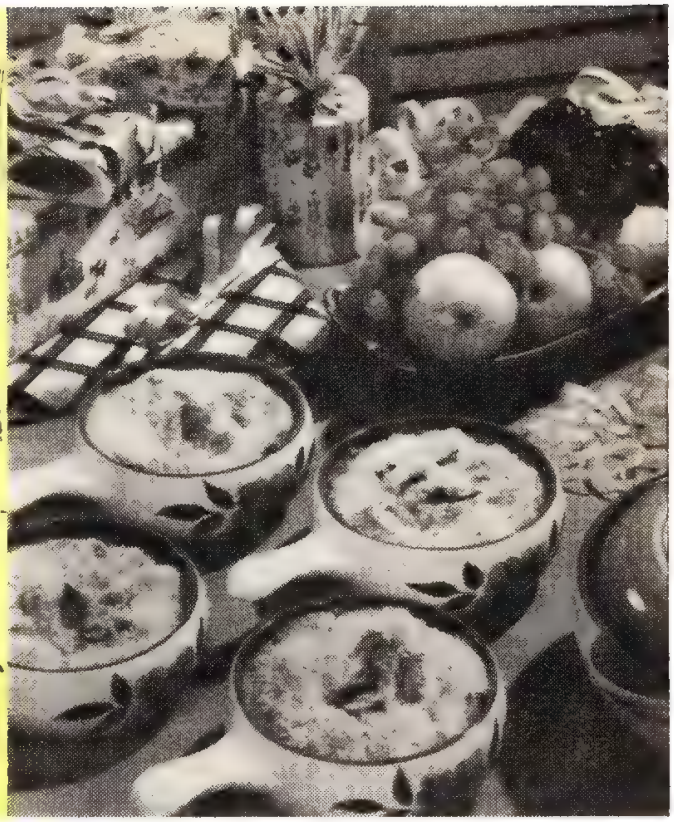
new ways with the old



When speaking of things that are new, you run the risk of someone challenging that "there is nothing new under the sun." Who can rightfully say whether something is entirely new or a variation of something old? Regardless of opinion, there always will be changes. In the food industry there are changes in three areas. The food itself is taking on new methods in preparation and preservation. New sizes, shapes and material of utensils are being used in cooking. The preparation of food is about to take on a big change. Right now food is being cooked electronically in laboratories. There are new methods of preserving foods that can be stored right on the pantry shelf. Beef or pork chops, for instance, can be atomically irradiated so they will keep in excellent condition for a year or more right beside your sugar and flour. A complete chili or chicken and rice dinner can be stored in a package about the size of a can of ordinary spice. The foods have been dehydrated and come back to life by simply soaking in water. Materials used in cooking utensils are being geared to quicker cooking with less moisture and more even heat. Sizes and shapes are taking on added convenience too. How many times have you fussed with cutting a pie in six or seven equal pieces? There are now available pie pans shaped with either six or seven sides. You simply cut from the center to the mark on the rim for uniform pieces of pie. You can even throw away your turkey roaster. With quilted foil paper you can "build" a custom pan for your bird. Merely fold up four sides on a sheet of quilted foil paper to fit the size turkey or chicken or duck you want to roast. Many of the pre-cooked foods come in their own foil cooking utensils.

We have not quite arrived at the atomic irradiation in preservation of

foods. Right now freezing is really a miraculous way of preserving foods. It has made a big change in our food habits. Frozen products have gone from individual foods to main dishes to three course meals (soup, fried chicken, mashed potatoes and apple pie). Just because a food is solid as ice does not mean it is properly stored. Be sure that you store your frozen food at zero degrees.

Everybody has been eating soup for a long time. But are you acquainted with the pleasure of drinking soup? You can drink it as a hot buttered soup or as soup on the rocks or as a soup and milk drink. Put two different kinds of soup together to have your own new flavor.

Lobster Thermidor

- 1 tablespoon butter or margarine
- 1 can (10 ounces) frozen condensed cream of shrimp soup
- 1 cup diced lobster (5-ounce can)
- ¼ cup milk
- ¼ teaspoon dry mustard
- ⅛ teaspoon cayenne
- grated parmesan cheese
- paprika
- bread crumbs

Brown mushrooms lightly in butter. Add soup, lobster, milk, mustard and cayenne; heat slowly, stirring frequently. Spoon lobster mixture into individual baking dishes; sprinkle cheese, paprika and bread crumbs on top. Bake in a hot oven (400°F.) about 15 minutes. Serves 3.

Supersonic Chicken with Celestial Sauce

- 2 teaspoons monosodium glutamate
- 1 teaspoon salt
- 3 broilers, halved
- ¼ cup (½ stick) butter or margarine
- 3 tablespoons lemon or lime juice

Sprinkle monosodium glutamate and salt over chicken. Line broiler pan with aluminum foil. To broil, turn temperature control to 350°F. Pre-heat broiler unit with broiler pan in place approximately 4 inches from heat. Place chicken, skin side down, on pan. Combine butter or margarine and lemon or lime juice; brush over chicken. Broil 30 minutes brushing occasionally. Turn and brush chicken again; broil 30 minutes longer. If desired, top with fresh orange slices last 5 minutes of broiling.

Chicken is a favorite from the time a child can hold a drumstick in his chubby hand. Never will it be more of a favorite than broiled with lemon and orange and served with orange rice and orange sauce.

Celestial Sauce

- 1 cup currant jelly
- 1 can (6 ounces) frozen concentrated orange juice
- 1 teaspoon dry mustard
- ⅛ teaspoon ginger
- ¼ teaspoon Tabasco
- 2 tablespoons slivered orange peel

While chicken is broiling, mash currant jelly with a fork in a small saucepan. Add undiluted concentrate (less 2 tablespoons for orange rice) and remaining ingredients. Heat and stir until mixture is smooth. Makes 1½ cups.

Orange Rice

- ¼ cup butter or margarine
- 1 cup diced celery with leaves
- 3 tablespoons chopped onion
- 2 tablespoons slivered orange peel
- ½ teaspoon salt
- 2 tablespoons reserved orange juice concentrate
- 1 5-ounce package (1¼ cups) pre-cooked rice

How should I clean the leaves of my African violets? Mrs. L.M., Nebraska.

Contrary to popular belief the best way to clean the leaves of the African violet is through the use of a fine spray of water. On a cloudy forenoon, using a scollay, or rubber bulb sprinkler, and lukewarm water give the plant a good washing. By afternoon the plant will be dry and clean and no harm done. The usual practice is to brush the leaves with a soft flat camel's hair brush.

Can you tell me how to care for a peperomia or Emerald Ripple plant? How often does it need water? Mrs. J.B.M., Indiana.

A plant growing in a moist atmosphere at 60° temperature requires far less water than a similar plant growing in a hot dry room. The amount of water to be given a plant cannot be reduced to a definite rule. The peperomias as a group require remarkably little water but the new one, Emerald Ripple seems to demand more moisture than most peperomias. It thrives in a warm humid atmosphere and should be kept moist at all times. Give it less water than the African violets but more than the other peperomias. After watering, allow it to become dry enough for the soil to turn light in color and then water it heavily. It likes a light well drained soil and an occasional light application of commercial fertilizer. New plants may be started from leaf cuttings, in sand, or by dividing old plants.

I have a plant which I was told was called a carnation rose. The stalks, leaves, and thorns are similar to blackberry vines. The flowers are white, resemble carnations, but have no fragrance. What is the correct name for this plant? Mrs. H.D., Texas.

If the flowers on your rose bush are about 1½ inches wide, in small clusters, white, and not fragrant, it is probably rose arvensis. The Ayreshire rose is a double-flowered hybrid of this species.

Gardening questions are answered each month by C. L. Quear, one of the nation's leading gardening experts. Send questions on a post card — do not send samples of plants or leaves. Mr. Quear will answer questions only through the pages of The WORKBASKET; no questions will be answered through the mail. The most general and interesting questions will be selected to be answered when they are timely. Address to Flower and Garden Forum, The WORKBASKET, 543 Westport Road, Kansas City 11, Mo. Include name and address.

How old should a rhododendron be before it blooms? These plants are hybrids. Mrs. I.F., Michigan.

Hybrid rhododendrons have the characteristics of rapid growth and the habit of flowering when extremely young. A rooted cutting or seedling is almost a year old before it is ready to plant outside in the open. Some of them will show bud the second year after planting out and most will bloom the third year. There are many hybrids and seedlings that will not bloom so soon. But, in general, plants should bloom by the time they are three years old.

For several years my African violets were beautiful, but recently they never open up and are shriveled around the edge. The blooms have a tendency to turn down. What can I do for them? Mrs. O.H., Missouri.

When the blooms of the African violet fail to open, appear shriveled and deformed it is likely they are infested with cyclamen mites. The mites are extremely hard to eradicate for it is almost impossible to reach them with a contact spray. A spray containing rotenone used once each week or 10 days will gradually clean up this pest. The vapor from a layer of naphthalene flakes scattered around the pots of violets will act as a fumigant and help to control the mites.

How should I cut my geraniums back? They have grown very tall during the winter. What is the proper care for them so they will bloom? Mrs. J.E.H., Tennessee.

You "stop" the growth of a geranium branch when it becomes as long as you want it to grow by merely pinching out the tip. If a plant has not been "stopped" and is too tall, it may be cut back as far as you desire so long as a few leaves remain. Pruning it back forces branches to come out nearer the ground and makes the plant low and bushy. Pruning the plants hard, that is cutting off ½ or more of the stem length, in April will pretty well destroy the summer bloom but they should be full of heavy and large bloom in fall and early winter. To secure the maximum bloom, take cuttings in September and keep them growing in a cool, light place until February. Then repot them in rich, heavy soil, pinch out the tips and place them in a warm sunny place. Keep them growing as fast as they will grow. They should respond to such treatment by blooming from Mother's day until frost. It is lack of light coupled with a warm room and ample water that causes the geraniums to become so tall during winter. In the future, whenever a plant becomes as tall as you desire it to grow, simply pinch out the tip.

What are the soil requirements and care for camellias? How often do these flowers bloom? M.C.G., Pennsylvania.

Camellias will grow in any soil where ordinary plants thrive. They prefer good deep loamy soil containing adequate organic matter, preferably rotted cow manure. They are almost indifferent to soil acidity. Soil that ranges from near neutral to slightly acid is excellent. They need partial shade, adequate water to keep the ground moist to a good depth during the growing season and an occasional syringing of the foliage in hot weather. They have only one blooming season a year.

Plant a Glad Patch

Gladiolus could well be the symbol of a lazy, but smart gardener. Plant the bulbs in any good garden soil where sunlight is available during at least half of the day, and glads will furnish beautiful spikes of colorful bloom. Flowering time comes in July and August when picnics and golfing, boating and weekends at the lake, and heat and mosquitoes seem to take the gardener everywhere but to the garden.

Gladiolus bulbs can be planted as early in the spring as the soil can be worked easily. Spade the soil deeply. Early blooming varieties like Crusader, Cupid, Friendship, White Lace, Bo-Peep, Emily's Birthday, Lavender Petunia, Peter Pan and Statuette if planted in April give June bloom. Those varieties that mature in 80 to 90 days can be depended upon for July bloom. For a long season make a planting of glads every ten days or two weeks from the first of April until June. If the June planted glads receive plenty of water during dry weather and protection from insects, they will provide spikes of perfection during the latter part of August when the weather begins to cool.

Most gardeners like to have a "glad patch" — a plot of ground where the bulbs can be planted in long rows, cultivated easily and the spikes of flowers cut for bouquets. It is for this purpose that glads are most worthwhile. Their foliage is not particularly attractive in the

perennial border after the flowers have faded. It must be allowed to ripen, however, and should be kept green and growing as long as possible. If glads are planted in the border, a grouping of three to six should be put together, preferably of one variety. They will not be happy competing with strong roots of daylilies, irises or other established perennials. They will do well in a border of annual flowers like zinnias and petunias. A low growing plant such as verbena, annual phlox, portulaca or sweet alyssum makes a good ground cover plant to grow around the base of glads to keep them from appearing so stark. The soil cooling, moisture preserving qualities of such ground covers should not be overlooked if you live in a hot, sometimes dry climate.

Glad bulbs are classed in sizes from number one to number six. Ones and twos are large, threes and fours medium and fives and sixes small. Large and medium sized bulbs give the most satisfactory flowers. Small bulbs usually flower but produce small spikes. If your growing conditions are good, the small bulb will produce a much larger new bulb for next year. The glad bulb you plant this year will shrivel as the season passes and a new corm will form. That is why it is so important that the foliage be kept in a green, growing condition for as long as possible. When the spikes are cut for bouquets, cut as little of the foliage as you absolutely must.

Large and medium sized bulbs should be planted five to ten inches deep, small corms three or four inches. If you plant in a row, allow five to ten inches between the bulbs

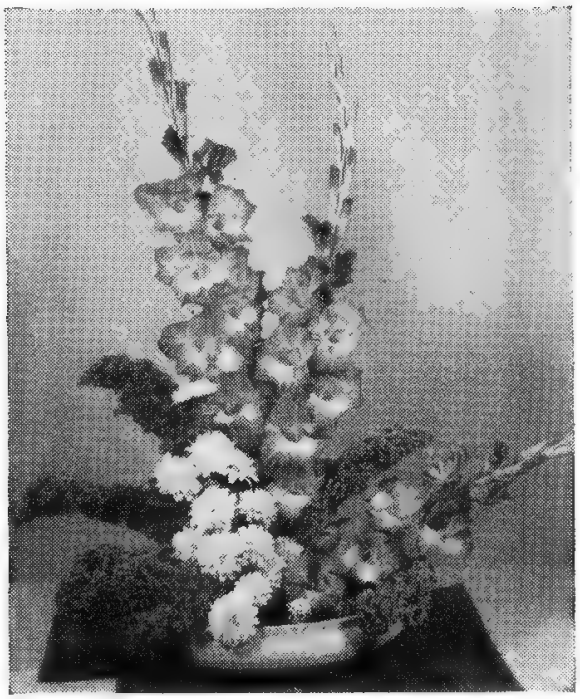
Glad Patch

(*Continued from Page 37*)



and 18 to 24 inches between rows. In a clump planting, six inches apart each way is about right.

Most glad growers ship clean stock that is as free of diseases or insects as possible. Thrips, a tiny black thread-like sucking insect, causes splotched "burned" spots in the flowers and on the foliage of glads. They can be controlled with any multi-purpose insecticide. Fusarium rot is a more serious problem in gladiolus growing. A fungus, it slowly destroys the cells of the bulb, rots the roots and the stem. The foliage turns brown and falls over. Dig out any glad that shows signs of this disease and burn it. Do not add the foliage to your compost pile.

Green aphids often choose young glad bulbs for a tasty part of their diet. The multi-purpose insecticide used to control thrips takes care of aphids too.

In late September or during October before killing frost, dig glads. Cut off tops just above the bulb and

let dry a bit in the shade. Remove the dirt and extra husks and store for the winter in a cool place where they will not freeze. Dust lightly with DDT at storage time. At planting time in the spring, dip the corms in a solution of Ceresan to control diseases. Follow manufacturer's directions.

Five gladiolus varieties have been selected as All-America selections. They all mature in 65 to 75 days with three to five-inch flowers on tall spikes. Caribbean has four-inch distinctly ruffled blue-violet flowers. It is extremely vigorous. Royal Stewart produces tall, straight spikes that open at one time eight to ten clear, light red five-inch blooms. Maytime has ruffled deep pink flowers with large white throats. It is a robust grower. Appleblossom has large white flowers with a flush of cool rose-pink at the edges of the petals. Emperor, the latest selection, is a regal giant that sometimes grows six feet tall! The giant flowers are light purple with a conspicuous white throat.

Montbretias are glad relatives worthy of trial in any garden. The flowers are bell-shaped, a little smaller than those of glads. They are tender and should not be planted until the weather is warm. Blooms come in August. There are many named varieties which come in the colors of yellow, red, orange and pink. They require full sun and grow 2½ to 4 feet tall.

Tigridia, the Mexican shell flower, is also handled like glads. The tubers form fleshy underground roots that store up water for dry spells. The flowers, each lasting one day, come in profusion during July and August. They are large with flamboyant bright, satiny petals of many gay colors.

Miniature Floral Arrangements

Frances Mueller Callahan

Materials:

Pretty white and colored plastic tops saved from bottles and spray-can containers.

Small artificial or straw flowers.

Plaster of Paris.

Method:

Plastic tops are inverted to become miniature flower pots. Pots are filled almost full of plaster of Paris mix. Flowers are garnered from old corsages or hat trim, and are used singly or in groups, according to size of flowers and tiny pots. Stems are clipped short and arrangements made in the freshly-mixed plaster.

These little flower pots make a pretty gift for mother; especially for Easter or Mother's Day. She can group several of the little flower-filled pots on a window sill, shelf or etc.

ACCORDION MANUFACTURERS AND WHOLESALERS OUTLET
2003 W. Chicago Avenue, Dept. WB-48 Chicago 22, Illinois

Grand Forks Mother can't risk being a "pioneer" when she shops...

She's always satisfied most with a BRAND that's made a NAME for itself!

MANUFACTURER

"I MADE IT... and I make sure that the best materials and workmanship go into any product with *my* name on it. Naturally, people blame *me* if my product is unsatisfactory, and they stop buying it. I can't risk turning out anything that may be only 'second-best.' "

DEALER

"I SOLD IT... recommended it because the name it has made for itself tells me it's one of the best, most up-to-date products in its field. In fact, a good brand name is the best *guarantee* my customers can have when they buy. And for me, too... I know they'll buy it again."

CUSTOMER

"I BOUGHT IT... because it's an advertised brand I can trust completely. I just won't risk my family's welfare on some product I don't know anything about—even when they say it's 'just as good.' I feel safer, somehow, when I stick to a brand I *know* I can depend on."

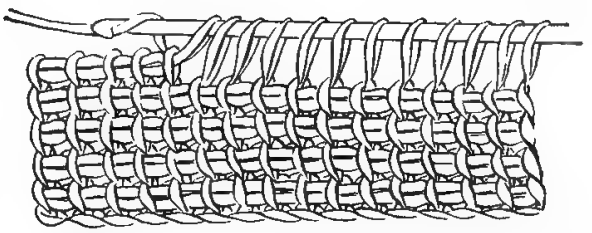
Telephone Book Cover

THIS COVER will fit any phone book up to 9½ x 11 inches. Kentucky All Purpose Yarn was used to make it; use an aluminum afghan hook number G. It is worked in afghan stitch which makes a very pretty all over pattern. The house trim is made from felt.

Abbreviations:

ch (chain)	sl st (slip stitch)
lp (loop)	sc (single crochet)
st (stitch)	sk (skip)



Afghan Pattern Stitch—Row 1: Draw up a lp in each st of ch, leaving all lps on hook, draw through 1 lp, * yarn over, draw through 2 lps, repeat from * across row.

Row 2: Draw up a lp in each upright st, leaving all lps on hook, then take off all lps in the same manner as on row 1. To fasten off, sl st across row.

Gauge: 4 afghan sts equal 1 inch
3 rows equal 1 inch

Make a ch to measure around telephone book, adding an additional 5 inches to cover two inside flaps, 2½ inches each. Work in afghan st until piece measures full length of book. Fasten off.

Join yarn again in any corner, work 1 row sc around entire piece, working a sc in each st of each row along the two short sides of piece. Sk every third st along the two long sides, work 3 sc in each corner st.

Next Row: Fold the two 2½ inch inside flaps down in place, and work

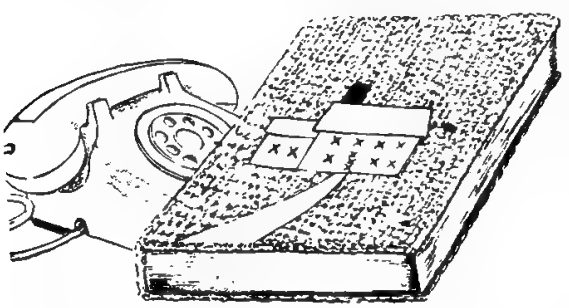
another row of sc all around, catching flaps down in each corner as you come to them.

Work a row of sl st along both rows where flaps have been turned down (2½ inches in from each short side), working a sl st in each vertical bar the full length of the piece.

Work 1 more row of sc along top and bottom of piece, working from sl st vertical row (at beginning of flap turn-in) to other sl st vertical row. Join tops and bottoms of flaps to main portion.

Measure piece to telephone book and work a row of sl st along the 2 lines of vertical bars to separate front of cover from the back cover, thus outlining back binding of book. Turn down top and bottom, last sc row, hem on outside of work.

House Trim: Cut 2 rectangles of white felt, one, twice as large as the other. Cut 2 rectangles of red felt, each about 1 inch wider and ⅓ the length of the white rectangles, for roof tops as shown. Sew red roofs to white houses as illustrated, using black cross stitches to indicate windows and doors.



Chimney: Using black, ch 4, turn. Work even in sc on 3 sts for 5 rows. Fasten off.

Walk: Cut a curved strip of white felt to indicate walk to house. Arrange pieces as shown and sew into place.

Inside Ties: Join green in top row, 3 sts for 1 center line, ch 50, fasten off. Make 3 more chs in same manner, 1 at bottom row 3 sts in from same center line, and the other 2 to correspond on other side of the other line. Use these two chains as ties on inside to secure cover to book.

Press lightly with damp cloth.

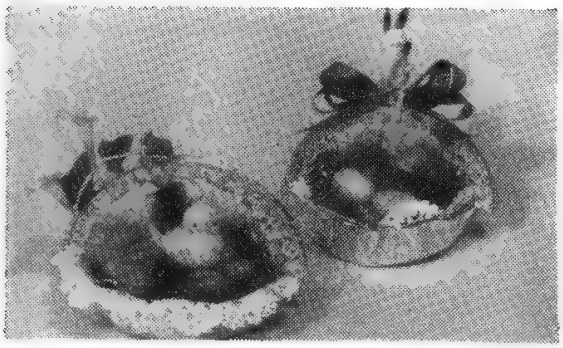
Easter Baskets

Frances Mueller Callahan



Make these bright, shiny Easter baskets from foil tins which originally contained frozen pies. Use the individual - sized tins for small baskets which are ideal for party favors and similar purposes; use a larger tin for a basket to be placed on a coffee table during the Easter week-end or as a centerpiece for the dining table on Easter Sunday.

A pie tin is easily turned into a shallow basket shape simply by snipping the rim all the way around the tin except at two spots directly across from each other. Part of rim allowed to remain intact should be about ¾-inch on a small tin and 1 inch on a full-sized tin. Bend cut portions of rim upward to form basket handles. A stronger handle results if both sections of rim are secured together at the top of the curve. Fasten rims together with either staple or cellophane tape. To make the sides of the basket both more firm and upright, make little pinch pleats around the edge where the rim was cut away.

Tiny sprays of artificial flowers, little cotton bunnies, chicks or ducklings are attached to handle for appropriate Easter trim. Small paper doilies in white or pastel colors may be placed in the baskets before they are filled with paper grass and eggs.

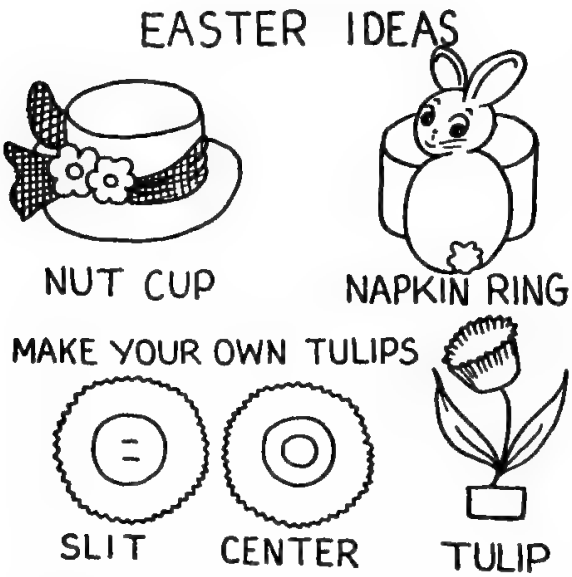
Junior WORKBASKET

Did you ever know that the cardboard tubes that waxed paper is rolled on can be used for many things? I'm going to tell you about two things they may be used for, making your Easter table the cutest ever!



First of all, we'll make an Easter bonnet nut cup. Have someone older help you cut the tube into little rings about 2 inches wide. Cover the rings with colored crepe paper, pasting it down on the inside. Cut a circle (slightly larger) from matching construction paper and tape the crown of the hat to the center of the circle. Now the hat is yours to decorate in any way you like. Use bits of veiling, ribbon, little flowers, feathers and beads. Wouldn't it be fun to make a different bonnet for each place at the table?

The little cardboard rings also make cute napkin holders. Cover each with crepe paper as before. From white paper, cut a bunny, something like the one I have drawn for you. Paste the bunny onto the paper-covered ring. To add a little "extra" make his tail from a puff of white cotton. We'll call this little fellow "Bashful Bunny".

If you have no pretty flowers for the center of your table, I'm sure that you will find these little tulips very nice. Use colored cupcake liners for the flowers, slitting the centers as shown, and inserting a green pipe cleaner for the stem. Cover this with a circle of colored construction paper pasted on. Cut leaves from green crepe paper or construction paper and tape to the stem. Insert stems in plastic foam or a lump of clay, and put into a vase.
